SWEET & SASSY

Lemon meringue is a classic favorite that blends delicious flavors and textures. The sweetness of the meringue is the perfect counterpart to the tartness of the lemon. Spring is a great time to brighten up your desserts with citrus flavors.

- According to a **Mintel** study, with the recent focus on health and reduction of sugar intake, savory and tart flavors are used in menu formulation to offset sweetness in baked goods and desserts.
- Let **Lawrence Foods** Instant Meringue Powder lend its charms to the party. With superior shine and stability, this meringue will take your desserts to a new level!

Lawrence Foods has just what you need to kick off the Spring season!
